Strengths

Collaborative

Try to collaborate and work towards one goal

Time management

Time is consistency which indeed produces results.

Projects

MFPE Project

- Developed a Portfolio Managing System which can calculate the networth of the customer's portfolio.
- A portfolio which has Stocks and Shares and customer can choose to sell the asset if required.
- This system uses Angular to display the UI and uses SpringBoot framework backend to communicate with the database.

Movie Booking App(FSE1 Accredited)

- Developed an application using Angular and SpringBoot which uses MySQL as database which can either Book a Movie Ticket if user is logged In and if Admin is logged then movie and its tickets can be added, removed or updated.
- This system is built on Java Security which uses JWT Authentication and Authorization to safely navigate as per login(i.e user or admin).

Certification

AWS Cloud Practitioner by Amazon

October 2023

URL: <https://aws.amazon.com/verification>
to validate use: X8SHGML2XBF10157

- Responsible for managing business's cloud infrastructure including designing, deploying and maintaining cloud-based solutions.
- Have to ensure the cloud environment operated as expected and is always secure and available
