Vishal S B

3-76, Prakashitha House, Bengere Road, Gujjadi post, Kundapura
Taluk, Udupi District, Karnataka, 576247 Kundapura (India)
7348950784 | vishalbhandary18@gmail.com

Professional Experience

- **Cognizant Technological Solutions Pvt. Ltd.**   28-12-2021 - Current
  Programmer Analyst
  - Leveraged **Java Spring Boot framework** to design and develop robust backend applications, focusing on creating efficient APIs and services for data manipulation and extraction.
  - Utilized **Relational database management system** to ensure seamless data storage and retrieval, enhancing application performance.
  - Employed **Postman** for **API testing** and validation, ensuring the reliability and functionality of backend services.
  - Spearheaded the development and implementation of UI components and project elements using **Angular Framework**, resulting in a notable 40% increase in user engagement.
  - Demonstrated proficiency in **version control** tools such as **Git and GitHub** for code development and management, ensuring collaboration and codebase integrity.
  - Applied **Core Java** concepts, including **object-oriented programming (OOPs) and exception handling**, to optimize development processes and enhance code quality.

Skills

- Frontend: HMTL5, CSS3, Bootstrap, JavaScript, Angular, ReactJS, NodeJS
- Backend: Java 8, Maven, Core Java, SpringBoot, ExpressJS
- Databases: MySQL, MongoDB
- Web Development Stack: MERN, MSA
- Version Control System: GIT, Apache
- Cloud Engines: AWS
- Microservices, RESTful API's, SOAP, Hibernate with JPA
- Junit, Mockito
- Docker, Kubernetes
- Prometheus, Grafana

Education

- **M S Engineering College Bangalore**   Aug 2016 - Aug 2020
  B.E in Computer Science and Engineering
  7.43/10

- **Government PU College Kundapura**   Jun 2014 - Mar 2016
  Pre-University Degree in PCMC
  68.30%

- **S V English Medium School Gangolli**   Jun 2013 - Apr 2014
  Karnataka Secondary Education Examination Board
  81.12%

Strengths

- Proven track record of fostering strong teamwork by effectively collaborating with cross-functional teams to achieve project goals and deliverables.

- Demonstrated consistency in delivering high-quality work on time, showcasing a strong commitment to meeting project deadlines and milestones.

- Efficiently utilize time management skills to prioritize tasks effectively, resulting in optimal resource allocation and project success.

Projects

- MFPE Project
  - Prepared a Portfolio Managing System which can calculate the networth of the cusomer's portfolio.
  - A portfolio which has Stocks and Shares and cutomer can choose to sell the assest if required.
  - This system utilizes Angular Framework to display the User Interface and SpringBoot framework in the backend to comminicate with the database.

- Movie Booking App(FSE1 Accredited)
  - Implemented an application using Angular and SpringBoot requing a database i.e MySQL, which can either Book a Movie Ticket if user is logged In and if Admin is looged then movie and its tickets can be added, removed or updated.
  - This system is build on Java Security which is defined with JWT Authentication and Authorization to safely navigate as per login(i.e user or admin).

Certification

- **AWS Cloud Practioner by Amazon**
  October 2023
  URL: https://aws.amazon.com/verification
  to validate use: X8SHGML2XBF10157

  - Responsible for managing buisness's cloud infrastructure including designing, deploying and maintaining cloud-based solutions.
  - Have to ensure the cloud environment operated as expected and is always secure and available
